P

**BERNARD KHOURY** is a Lebanese architect, currently running a firm - DW5 in Beirut, Lebanon, a design production facility for developers, architects, planners and designers. His works include 8018 music club, the Centrale project, Yabani, plot #1282, The Black Box etc. translate his ability to produce critical interventions in problematic zones.

**ANIKET BHAGWAT** is a third-generation landscape architect at Prabhakar Bhagwat, in Ahmedabad. His projects including Beach House at Tithal and Jariwala House in Ahmedabad focus on the essence of context through subtle coded symbolism and express the visceral connect rooted in our culture and context.

**SHUBHRA RAJE** is the founding member of the Anant Raje foundation and her own firm- Shubhra Raje -Built Environment. Her projects, for instance Aparna World School and Architectural Conservation in Abydos are strongly inspired by the architect's choice in swinging between traditional practice models and radical pragmatism.

**RAFIQ AZAM** is the principal architect of Shattoto, an architecture firm based in Dhaka with a focus on "architecture for green living". SA Residence, Khazedewan Apartments, South Water Garden are some of his many projects that resonate with his ideology of collaborating with local realities, and depict interplay between artistic autonomy and social engagement.
